PHILOSOPHICAL GUIDE

Olumuyiwa Akinrole Oludayo Ph.D.

The basis for my actions, beliefs, opinions, visions, and experiences will be hinged on the following principles.

I am committed to:

1

ACTIVATING PLATFORMS

I will be building institutional frameworks about the dreams and ideas that I have. This is the time to switch on and make operative a number of ideas that have lingered on in my mind.

- I will be guided by this key phrase: "Taking action on an idea is the surest way to commence your journey towards increased influence."

2

PUBLISHING INSIGHTS

I will be producing processed information to guide those within my sphere of influence to take decisions that will maximise their capabilities and improve their results.

- I will be guided by this key phrase: "The power in information is not experienced until it is directed at meeting the demands that enables success."

3

FACILITATING LEARNING

I will be committed to making things easier for those within my circle of influence so they can be supported towards realizing their dreams.

- I will be guided by this key phrase: "Your capabilities only add value when deployed towards the production of things that enhance the dignity of others."

4

SUPPORTING ORGANIZATIONS

I will be supporting organizations with my capabilities to impact their market and add value to their stakeholders.

- I will be guided by this key phrase: "Your ability to influence others has many paths to be followed, chief of which is to touch the hearts and hands of those that have large following."

5

EXPANDING TERRITORIES

I will be positioning myself to serve others beyond my immediate geographical region.

- I will be guided by this key phrase: "A ward is where you are sent from, the world is where you are sent to."

6

SETTING STANDARDS

I will be partnering with individuals, groups, organizations, and communities to redefine how we should be getting better in our ways of getting things done.

- I will be guided by this key phrase: "When we fix the way we think, we will be equipped to solve our problems in ways we have never done before."

2023

PHILOSOPHICAL GUIDE

My Philosophical Guide is the compass upon which all my activities are based. They serve as the track upon which all my commitments will run.
